Coaches will become comfortable and confident in teaching individuals with any impairment using safe, effective techniques and adaptive equipment. The AM segment presents a full array of common scenarios from physical-mobility impairments such as spine injury, loss of limb to cognitive and sensory issues such as brain injuries, low-vision/blind through video and photos. The PM segment provides self-adaptation experiences across different scenarios before working with individuals coming from the community.

ADAPTIVE GOLFERS IN THE AREA ARE INVITED TO JOIN US 3 PM - 4:30PM.
